SUMMARY

Dynamic Frontend Developer with a proven track record of 2+ years in developing and maintaining sleek web applications. Specialized in HTML5, CSS3 and JavaScript, proficient at leveraging cutting-edge web development frameworks such as React. Adept in cross-platform development and thrives in collaborative, cross-functional environments.

PROFESSIONAL EXPERIENCE

Frontend Developer

Code Inclusive (February 2023 — Present)

Lagos, Nigeria

- Led and efficiently managed a cross-functional team ensuring clear communication, task allocation and progress tracking resulting in improved project delivery timelines.
- Facilitating direct meetings with clients and UI/UX designers to incorporate suggestions into the app, resulting in a 50% increased revenue.
- Developed 10+ accessible and responsive web applications using React, NextJs and Typescript ensuring seamless user experiences and adherence to accessibility standards.
- Maintained and optimized workflow using project management tools like Slack and Trello to streamline processes and monitor project progress, resulting in a 20% increase in work productivity.
- Utilized Apollo GraphQL, Firebase and REST for efficient data retrieval reducing page load times by 15%
- Converted React apps to Progressive Web Apps (PWAs) enhancing offline functionality and user engagement, leading to a 25% increase in user retention.
- Integrated payment gateways such as paystack, flutterwave and stripe, providing secure and seamless payment processing options for users, resulting in a 30% increase in successful transactions.
- Efficiently managed states using Redux Tool Kit and Context API improving data sharing and reducing code complexity, resulting in a 20% reduction in bugs related to state management.

Frontend Developer

Bumble (October 2022 — November 2022)

Lagos, Nigeria

- Crafted an engaging social web app using React and Sass, ensuring accessibility and responsiveness.

- Leveraged React hooks, including useState and useParams for efficient state management and dynamic page rendering.
- Enhanced user experience with a customizable dark mode and light mode toggle using React's useContext feature.
- Implemented seamless navigation with React-router, facilitating smooth transitions between pages.
- Elevated user interaction through intuitive animations using React's drag and drop library.

Frontend Developer

Fudlist (August 2022 — October 2022)

Bayelsa, Nigeria

- Spearheaded the design and development of a user-friendly food ordering web app with React and Sass.
- Orchestrated effective collaboration within the team to fulfill client requirements and exceed expectations.
- Ensured seamless navigation and page transitions by integrating React-router into the app's architecture.

EDUCATION

React Development

Zero To Mastery Academy (2022)

Bachelor of Science (B.SC) (GPA: 4.15)

University of Africa (2017 — 2021)

Bayelsa, Nigeria
